PROFESSIONAL SUMMARY

Results-driven Backend Developer specializing in Python, Django, and RESTful API development. Experienced in building reliable backend architectures, optimizing performance, and developing scalable web applications. Passionate about clean code, problem-solving, and delivering efficient solutions in collaborative environments.

TECHNICAL SKILLS

Python	HTML5	RESTful APIs
Django	CSS3	MySQL
Flask	Javascript	Git/GitHub

PROJECTS

Ezy-shopping (E-commerce System)

- Developed scalable backend for e-commerce platform including product and user modules
- Integrated and optimized RESTful APIs for efficient frontend interaction
- Designed structured database schema with robust validation for data integrity

Real-time chat

- Developed real-time chat application with Django and WebSocket integration
- Implemented user authentication and database models for message handling
- Optimized backend logic for smooth performance and reliable communication

Job Portal Project

- Built a job portal backend using Django REST Framework with role-based access (Recruiter/Candidate)
- Implemented job posting, application tracking, and search/filter features
- Integrated resume uploads (AWS S3/Cloudinary) and async email notifications using Celery
