

VIVEK KUMAR SINGH

Data Analyst | Power BI • SQL • Python • Excel

📍 Mohali, India | 📞 +91-8409444935 | ✉️ vsingh44002@gmail.com | 🔗 www.linkedin.com/in/vivek-44singh

PROFESSIONAL SUMMARY

Detail-oriented and analytical BCA graduate with hands-on experience in data analysis, dashboard development, and business intelligence reporting. Proficient in SQL, Python, Power BI (DAX, KPIs), and Excel for data cleaning, data modeling, and deriving actionable insights. Adept at translating complex datasets into clear visual stories that support data-driven decision-making. Seeking an entry-level Data Analyst role to contribute to business growth through analytical expertise.

TECHNICAL SKILLS

Data Analysis & Querying: Microsoft Excel (VLOOKUP, Pivot Tables, Power Query), SQL, MySQL, Python (Pandas, NumPy, Matplotlib)

Data Visualization: Power BI (DAX, KPIs, Slicers, Drill-through, Interactive Dashboards)

Data Management: Data Cleaning, Data Modelling, ETL Processes, Database Management

Concepts & Methodologies: Statistical Analysis, Descriptive Statistics, Business Intelligence, Reporting & Dashboarding

Tools & Platforms: MS Office, Jupyter Notebook, VS Code

PROJECTS

HR Analytics Dashboard | Power BI | DAX | Data Modelling 2024

- Analysed employee attrition trends across departments, identifying key factors contributing to a 22% attrition rate.
- Designed KPI-based dashboard with slicers and drill-through pages for HR leadership, improving decision-making efficiency.
- Applied DAX measures to calculate attrition rate, average tenure, and performance distributions across employee segments.

Amazon Sales Performance Dashboard | Power BI | SQL | Excel 2024

- Examined 12-month sales data to identify top-performing products, revenue trends, and regional sales patterns.
- Built interactive Power BI visuals with dynamic filters enabling stakeholders to drill into category-level insights.
- Reduced manual reporting time by creating automated refresh-ready data model connected to structured Excel sources.

Sleep, Mobile Usage & Stress Analysis Dashboard | Power BI | Python | Excel 2024

- Investigated correlation between daily screen time, sleep quality, and stress levels using survey and wearable data.
- Developed insight-driven dashboard with trend lines and scatter plots highlighting statistically significant patterns.
- Presented data-backed recommendations on screen time limits, supporting behavioural health awareness initiatives.

EDUCATION

Bachelor of Computer Applications (BCA) | Baba Banda Singh Bahadur Engineering College 2022 – 2025

- Relevant Coursework: Database Management Systems, Statistics, Data Structures, Computer Networks, Programming in Python.
- Final year project focused on business intelligence dashboards using Power BI and SQL data pipelines.

CERTIFICATIONS

- Data Analytics Professional Certificate** – Excellence Technology | 2024
- SQL for Data Analysis** – Great Learning | 2024
- Power BI for Business Intelligence** – Great Learning | 2024
- Data Analytics Fundamentals** – Great Learning | 2024
